Program Outline

What is DUI Court

DUI Court is a judicially supervised alternative program to incarceration involving a Driving Under the Influence (DUI) court docket aimed at increasing public safety, increasing offender accountability, and decreasing recidivism. DUI Courts are a collaborative community effort.

Effective 5/1/2016

The Pennington County DUI Court was established in Rapid City, South Dakota in 2013. Pennington County DUI Court is a voluntary program that provides intensive case management of nonviolent adult felony offenders. The offender is held accountable through regular appearances before the DUI Court Judge, daily PBT testing and random drug testing, substance abuse counseling in individual and group settings, mental health counseling, educational classes, a system of behavior modification based on incentives and sanctions, and intense community supervision by the DUI Court team.

Pennington County DUI Court requires participants to participate in community support groups and to be employed. The program length depends on each participant's progress at meeting all requirements of DUI Court but is no less than a year. This program gives participants the opportunity to achieve sobriety and learn the skills to maintain sobriety in order to avoid being sent to the penitentiary. The program is challenging and requires accountability on behalf of the participants. One of the many goals of DUI Court is for participants to gain self-esteem and self-motivation in order to live an alcohol free lifestyle.

Mission

The mission of the Pennington County DUI Court program is to enhance public safety by ensuring accountability through supervision, treatment and the support of community partnerships by reforming substance abuse offenders to sober law-abiding citizens.
